IPQS Info

IPQS determined that this email address appears to be valid.

IPQS Fraud Score

Fraud score: 0

This is an overall fraud score in the context of online user or customer screening (e.g. automated webshop checkout validation).

According to IPQS: 'Fraud Scores >= 75 are suspicious, but not necessarily fraudulent.' IPQS recommends 'flagging or blocking traffic with Fraud Scores >= 85.'

haveibeenpwned

accountupdate@google.com

haveibeenpwned

CC-BY Attribution 4.0 International

IPQS Tag: Suspect

This value indicates if the mail server is currently replying with a temporary error and unable to verify the email address. This status will also be true for "catch all" email addresses. If this value is true, then IPQS suspects the "valid" result may be tainted and there is not a guarantee that the email address is truly valid.

IPQS Tag: Catch All

Indicates this email is likely to be a "catch all" where the mail server verifies all emails tested against it as valid. It is difficult to determine if the address is truly valid in these scenarios, since the email's server will not confirm the account's status.
